

You made great music. Let us spread the word.

Nearly 10,000 unique visitors access
the MusicNewsHq network daily.

We're giving you the ability to place
your music in front of all of them.

We scour the web for buzzworthy musicians – grabbing information from the
Billboard Top 100, Amazon, iTunes, and popular review sites.

Our advanced bots assemble this information into artist-specific mini-sites –
collecting all news, media, and concert dates. We post it, broadcast it to our
extensive social network, and send it to our mailing list. Fans love that they can
get information about their favorite acts and music genres in one place.

Did our bots miss the buzz on your band? Maybe you're having trouble getting
reviewed on those huge blogs with pretentious writers? *Don't sweat it – we're
giving you a VIP pass to get in front of our growing audience...* On the following page,
you'll find our current rates & packages designed to get your music heard.

If you're interested – or just have questions – please let us know by responding to
publicrelations@musicnewshq.com.

We look forward to working with you!
